

WinZoom

New Screen Magnifier and Reader Offers True Portability

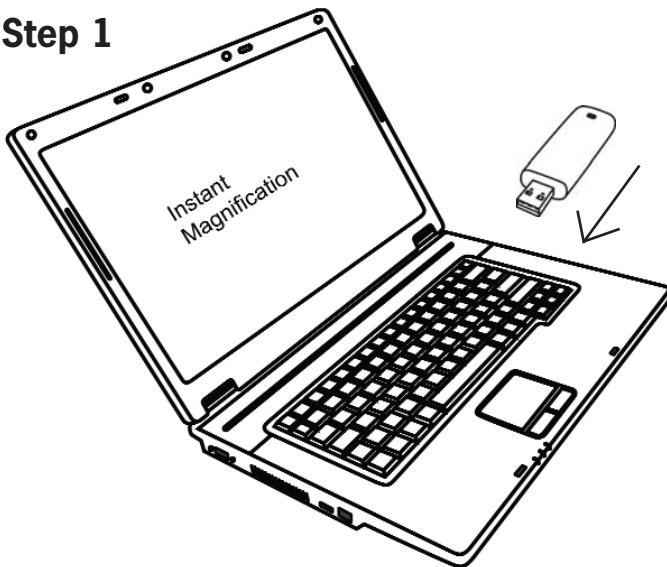

WinZoom USB is truly portable and will run on any Windows compatible computer with no software installation required. Simply plug WinZoom USB in and the autoplay function will launch the application immediately and let you use it without having to download any software or drivers. There is no administrative privileges required which is key when using a public computer, such as, ones at a hotel, library, school or even at a friends house. When you are done, just unplug WinZoom and there is no trace left on the computer.
